for Flute playing  
1 Microphone  
for Mandolin

Kevin Buckley  
**(1 Channel)**

1 Direct for For  
Fiddle

**1 Monitor**  
Stage Left

These technical needs can always be adjusted to fit the equipment capabilities of each venue. If you need to make adjustments because you are short some items CALL US at 913-302-4329 and we will accommodate the venue any way we can.

## Basic Needs

Two main speakers, a properly powered 12-channel mixing board or one that uses an amplifier strong enough to carry the hall or outside area of the venue and a 16-channel graphic equalizer so the hall can be EQ'd. We will also need four wooden sturdy chairs with no arms, one for each artist (Mike Dugger brings my own stool so he will not require a chair). All microphones, direct boxes, microphone stands and cables as requested in the Artist section. We will need the soundman stationed at the board at all times during the performance to insure a good balance of sound to the audience from the back of the hall. We will also need a reverb unit to soften the stage sound being delivered out to the audience. **Sound support for school assemblies or concerts MAY NOT be required as long as we are playing for LESS THAN 75 students and the room is acoustically sound. We will need to be placed as closely as possible to the students if this becomes the case. If you do have sound support and it is needed we will need at least 8 channels.**

Green Room requirements – 10 12-oz. bottles of water - assorted fruit and vegetable tray - separate dressing room for Connie Dover
